## OIL SYSTEM ACCESSORIES

### REMOTE FILTER BLOCK ADAPTER FOR "FE" FORD

AVIAID supplies both an original style cast block adapter and a contemporary billet block adapter that allows the connection to a remote filter or cooler, as well as a feed point for a dry sump system. Aviaid p/n 104-40203 Cast or 104-40203-01 Billet.

### FILTER MOUNT FOR "FE" FORD

This package consists of a cast aluminum filter mount (p/n 104 40204-01) that can accommodate a standard 3-5/8" Ford oil filter (3/4-16 thread) along with a steel bracket that mounts to the FE cylinder head (p/n 104 40204-02).

### HP6 FILTER MOUNT WITH REGULATOR

Designed to accommodate the larger HP oil filter (4-1/2" diameter with 1-1/2-12 thread), this adapter can regulate oil pressure. Aviaid p/n 010 40111. Also available without regulator. Aviaid p/n 010 50060.

### HP4 FILTER MOUNT WITH REGULATOR

Designed to accommodate a standard HP4 oil filter (standard Chevrolet 3-5/8" diameter with 13/16-16 thread), this multi-function adapter can regulate oil pressure, and also provides ports for oil temperature and pressure gauges. Aviaid p/n 010 40110.

### REMOTE HP7 FILTER MOUNT

Engineered to accommodate both HP7 and HP10 filter (3" diameter with 3/4-12 nipple) in any desired location. Also available with M18-1.5 thread (metric) nipple. Aviaid p/n 010 50030.

### REMOTE HP4 FILTER MOUNT

Lets you mount a standard HP4 oil filter (standard Chevrolet 3-5/8" diameter with 13/16-16 thread) in any desired location while also providing gauge ports to monitor oil temperature and pressure. Aviaid p/n 010 50040.

### AN-12 PICKUP BUNG

This weld-in aluminum bung assembly is intended for the conversion of an aluminum pan to dry sump or external wet sump application and has an AN-12 female O-ring port. Aviaid p/n 108 30883. It is designed to accommodate a mesh screen that is available with a -8 male fitting (p/n 108 36010-08), a -10 male fitting (p/n 108 36010-10) or a -12 male fitting (p/n 108 36010-12).

### REMOTE REGULATORS

These oil pressure regulators are available in a standard configuration, as well as with a rear O-ring port bypass. Both are offered with AN-08, -10 and -12 line fittings. Remote regulator with -08 fittings and -10 bypass is p/n 010 19000-08, with -10 fittings it's p/n 010 19000-10 and with -12 fittings it's p/n 010 19000-12. For regulators with a rear O-ring bypass the -08 model is p/n 010 19202-08, the -10 model is 010 19202-10 and the unit with -12 line fittings is 010 19202-12.

## REMOTE FILTER ADAPTERS

Aviaid has remote filter adapters to cover a wide variety of threads, filters and fittings. **p/n 104 40105-12-10** has a 3/4-16 thread, 2-3/4" OD gasket and -10 female fittings, **p/n 104 40105-13-10** has a 13/16-16 thread, 2-3/4" OD gasket and -10 female fittings, **p/n 104 40105-12-12** has a 3/4-16 thread, 2-3/4" OD gasket and -12 female fittings, **p/n 104 40105-13-12** has a 13/16-16 thread, 3-1/2" OD gasket and -12 female fittings. For adapters with metric fittings, **p/n 104 40105-18-10** has M18-1.5 thread (metric), a 2-3/4" OD gasket and -10 fittings, **p/n 104 40105-18-12** has M18-1.5 thread, a 2-3/4" OD gasket and -12 fittings, **p/n 104 40105-20-10** has M20-2.0 thread, a 2-3/4" OD gasket and -10 fittings, **p/n 104 40105-20-12** has M20-2.0 thread, a 2-3/4" OD gasket and -12 fittings.

## TRACO REMOTE FILTER MOUNTS

Originally developed by Traco Engineering back in the '60s, these popular mounts accommodate HP4 filters and are available with either left side or right side inlets. Needless to say, they're "period correct" for many Can Am and other applications. Aviaid **p/n 104 40111** has a left side intake and **p/n 104 40112** is the right side intake model.

## TRACO SWIVEL REMOTE ADAPTER

Another original Traco design, this swivel-style cooler/filter adapter fits small block and big block Chevy engines and accommodates GM-style filters. The adapter is Aviaid **p/n 104 40104** and the I&O O-ring kit is **p/n 104 40707**.

## REMOTE FILTER ADAPTER

Available for both AN-10 and AN-12 applications, these adapters have a 13/16-16 thread, 3-1/2" OD gasket. The -10 model is Aviaid **p/n 104 40108-13-10** and the -12 adapter is **p/n 104 40108-13-12**.

## "SANDWICH" COOLER ADAPTER

This unique adapter can be used with a stock-type small block or big block Chevy oil filter, and enables it to be remotely mounted. Can be equipped with a pair of -10 or -12 fittings on request. Aviaid **p/n 104 40709-02**.

## INLINE OIL FILTER

This handy filter can be installed at various points in the lubrication system and is excellent in tight confines. Has removable screen element that can be replaced. Aviaid **p/n 104 40019** has AN-8 fittings, **p/n 104 40020** has AN-10 fittings, **p/n 104 40021** has AN-12 fittings, **p/n 104 40040** has AN-16 fittings, and **p/n 104 40041** has AN-20 fittings. The filter screen (with flange) for -8, -10 and -12 filters is **p/n 104 40025-01** and the screen for -16 and -20 filters is **p/n 104 40025-02**. An inline filter screen (without flange) for -8, -10 and -12 is **104 40025-03**.

## REMOTE FILTER ADAPTER PLATE

Attaches to small block or big block Chevrolet engine blocks and facilitates the use of a remote filter mount or attachment of a dry sump system. Aviaid **p/n 104 40102**.
